MANAGEMENT OF ALL DOCK OPERATIONS

- Integration with your WMS, Logistic Booking or other systems. 
- Real time data transmission between Sites, agencies and drivers. Transport assignment. 
- Arrival registration, both remotely or on site and OPR/GDPR signature. 
- Waiting trucks view. 
- Automated or manual dock assignment logic. SMS notifications to drivers; without jams or waits. 
- Automated entrance barrier opening under number plate validation. 
- Access control and parking for vehicles and trucks. 
- Unloading, loading and security seals control. 
- Tractor trucks and trailers operations at the yard. 
- Work completion register and automated barrier opening. 
- Register of times of arrival to each shipment destination. 
- Digital trail for KPI reports (rejections, times at docks, punctuality...) 

APPOINTMENTS IN LOGISTIC SITES
